BOFESSOR WHEELER, would respectfully attract the attention of the Hengkong Public to the importance of baving the Hair Cut. and Dressed in an Artistic manner and style. Appropriate to the Individual is the cut of the Hair: there can be no fixed or prevailing fashion to Bign. without destroying almost universally the harmony of the four ensemble. Indeed as diverse at is the costour of the human hend and facial outline, just so prouliar should be the trim and arranges ment of the Hair. This fact is acted upon by only those Hair-Cutters who possess an inherent judgment in matters of taste, cultivated and improved by Increases study and application. Of this be one, and the Only One in this Colony, and he madestly but confidently invites all who may be distrusting of his ability to give him at least a trial before pronouncing an adverse opinion. . He may be found at all hours of the day in his Apartments adjoining the Private Entrance of the Oriental Hotel.

The first Native Barrister.

(Rengalee, Nov. 4.) By the last steamer another member of the Ta-gare family of Calcutta has returned from England in a position hitherto beyond the reach of native gentlemen. Baboo Ganendro Mohun Tagore, the non of Baboo Prosuono Coomar Tagore, takes his place at once as a Barrister of the High Court. It s remarkable that the first notive Civilian should be a Tagore, as well as the first native Councillor. They are nearly related, though one is a Brahmo and the other a Christian. Both are sincere, pious men, and ornaments to the nation. The career of Baboo Satendro Nath Tagore is, however, but just begun. Baboo Ganendro Mohun has already a tained Indian and Rug'ish celebrity. He left his home a grown-up man, with a thorough education, one of the first men amongst Bengulees. He' returns to it still in the prime of life, having filled the honourable office of professor of Hindao Law in the London University, and practised successfully as a Privy Council Advocate, occupying the ear of the Lords in a remarkable degree. It is undonbtedly a matter for congratulation that the highest positions in the country are no longer the archeive rights of the dominant race, A native co'league of the Chief Justice, a native "learned friend " of the Advocate General, a native Covenanted Magistrate-these are conditions and destinies overleaning the wildest dreams of the Bengalee of the days even of the liberal and the highminded Bentinck. The ramports baving been fairly won and the flag triumphantly housted, numerous and dashing beroes will soon follow their gallant leaders and cry death to the exclusionists. It behaves the native community to give a splendid reception to Baboo Ganendro Mohau. The virulence of caste and prejudice no longer probibit rational and even social intercourse with a conntryman, though no has defied orthodoxy, yes om- Southward. THE RATES OF PUSTAGE TO INDIA.—Some of us probably are not awars (says the Pall Malt Gazette) that the present mail service with India is carried on at a loss of 100,0001, per annum, Mr. P. Peel had a plan for covering the deficit, and at the same time securing precision in the despatch of mails, by adding four despatches in the course of the year, and so making the service atrictly a weekly one. So far, well. But at the same time he proposed to raise the postage from tengence to sixteen-pence, so that the four extra letters would cost about seven and sixpense apiece. Of course there was a tremendous commotion in the algori for immense exultation out there. But | without going as far as the Indian press, and calling the scheme " an incredibly gross attempt at dar's Wharf." imposition," we may remark that financially Mr. Peci was wrong. It always pays to cheapen postage. The sixpence extra would probably have cut off a third of the letters wa Marseilles. The great firms must of course write to and fro by the THE No. 2 and No. 4 Two Storied Godowns quickest route, whatever they have to pay; but in Spring Gardens, Praya, Marine Lot No. the little firms would have managed to do without 24 and 25, with Offices, Comprador, and Serso many letters; and as for private persons at vants Rooms, and Gookroom, having a Capacity FIRE HOUSE and GOHOWNH, at present both ends, nobely who knows the shifts to which of 2500 Tons each. a lady or an Indian officer will resort to bring the mouthly budget "under weight," can dight that

We are glad to find that the very unsatisfactory manner in which London telegrams are now coming forward has attracted the attention of the authorities. During the nine months the Indo-European Telegraph has been open, messages have never come through so slowly as during the last Siemesex & Co. few weeks, if we except the time during which, owing to the secentricities of either the London or Continental Telegraph officials, the telegrams were desputched via Bussia. The line, we may remark, divided into the following sections , London to Constantinople, about 1670 miles, with probably 4 or 5 intermediate transmit-

As stated by us a few days since, the line be tween Bombay and Kurraches has for several weeks worked better than it has done for hanv months previous, and from a letter from Mr. Walton, the Director of the 3rd Section, to the Bombay Government, dated October 27, it appears "that "the average time occupied on the transmission
